Functional Devices, Inc. Achieves ISO 9001:2015 Certification for Quality Management System

Sharpsville, IN - August 10, 2023 - Functional Devices, Inc., a leading designer and manufacturer of electronic devices, is proud to announce that it has been awarded the prestigious ISO 9001:2015 certification for its Quality Management System (QMS). This certificate of registration demonstrates that Functional Devices' QMS has been thoroughly assessed and found to conform to the stringent standards set by ISO 9001:2015. The evaluation was conducted by the esteemed EAGLE Registrations Inc., a certified women-owned business headquartered in Dayton, OH.

ISO 9001:2015 is the latest version of the internationally recognized standard for quality management systems. This certification validates Functional Devices' commitment to consistently providing highquality products and services that meet or exceed customer expectations. The Scope of Registration for this certification includes Design, Manufacturing, Assembly, and Product Testing of Relay in a Box (RIB) Products, catering to the Building Automation, HVAC, Lighting, Electrical, Panel Shops, Fire and Safety, and Power Monitoring Industries.

Functional Devices' achievement of the ISO 9001:2015 certification reflects its unwavering dedication to maintaining the highest level of quality, efficiency, and customer satisfaction throughout every stage of its operations. The certification reinforces the company's position as a market leader and exemplifies its ongoing commitment to delivering the most reliable and economical solutions to its customers.
